

Technical Product Sheet

Specifications

Product: T-Door Automatic Refrigerator

Name: MTB516JKRSS0

UPC: 757638375795

Capacity: 593 L.

Color: Stainless Steel

Characteristics:

- Automatic refrigerator
- T – Door type
- Inverter Technology
- Digital Display with Touch Panel
- Electronic Temperature Control
- Dual Cooling System
- Recessed lighted handle
- Plug Type G
- LTC Sterilization Device
- Sky Power interior LED light

FRIDGE

- 348 L. capacity
- LED light
- Chiller drawer
- Crisper drawer
- Moist zone
- Interior metal details

CONVERTIBLE ZONE

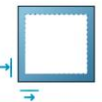

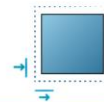

- Independent zone flexible: Fridge / Freezer
- Temperature range: -18 °C to -5 °C

FREEZER

- Twist Ice Maker Tray
- No-Fall drawers

Main benefits

- 84L Convertible zone that can be flexible to be fridge or freezer.
- Technology. New platform that impresses with its powerful smartness as well as technical innovations.
- The latest generation Inverter system combined with multi-air cold flow management. Total no frost.
- Preservation. Thanks to a simple, intuitive control, humidity can be managed properly for a longer and perfect preservation.
